**MEDIA ADVISORY**

**North Santa Rosa evacuation orders lifted, SMART to serve all stations - Sonoma County Airport to San Rafael beginning October 31; SMART continues free service**

Sonoma-Marín Area Rail Transit (SMART) will operate its full, end-to-end service schedule beginning Thursday, October 31, as a result of mandatory evacuation orders being lifted for the Santa Rosa North and Sonoma County Airport station areas.

SMART service will continue to be free of charge to assist those in the North Bay who need transportation options through Wednesday, November 6.

Regular service operates from the Sonoma County Airport station to downtown San Rafael, serving ten stations in between. Southbound service begins at 4:19 a.m. out of the Sonoma County Airport station, and northbound service begins at 5:59 a.m. out of San Rafael. SMART runs 34 train trips each day.

Please be aware that fire conditions can change at any time. Please check SMART's website: [www.SonomaMarinTrain.org](http://www.SonomaMarinTrain.org), before starting your trip to ensure there are no schedule changes.

Safety is SMART's top priority, and we will continue to monitor fire conditions and will use all necessary safety precautions.
